Fire Dangers Are Stressed By Steed

Ranger George Steed of the Truckee District of the Tahoe National Forest today issued an appeal to all deer hunters to be especially cautious with fire during the deer hunting season which opens Saturday.

The brush and timber are explosively dry and with prospects of winds, the fire danger is extreme, Steed warned. Even the smallest fire can become a major conflagration within minutes, so it is important that everyone observe all the rules concerning fire and take no chances.

Every available officer will be on duty and citations will be issued for any violation and courts have promised full cooperation in dealing with violators, Steed declared.

Camp fires must be watched at all times and smoking except in authorized areas will be prohibited. Fires must be completely extinguished before they are left.

Wolverines Win In Lincoln; To Meet Quincy Saturday

Fine spirit and a will to win, coupled with a real good break in the last 30 seconds of the game, gave the Tahoe Truckee Wolverines their first victory in 17 starts Friday night as they downed the Lincoln Zebras 6 to 0.

The break came when a Lincoln player fumbled the ball on the 16-yard line and John Tallant scooped it up and scored over tackle. The Truckee-Tahoe boys had a good opportunity to score in the first quarter but failed. In the second half, the defensive team found themselves and played a good, hard game. Jim Grady did a good job as linebacker.

Coach Ken Holback, naturally pleased with the outcome but still cautious, will make a few changes in the defensive lineup for Saturday's game with Quincy here. The offensive team will remain about the same but with Eberhart back in the lineup as guard following his recent marriage.

The varsity game will start at 2 p. m. following the JV contest at noon on the Truckee field.

The juniors continued their winning ways Friday night by drubbing the Lincoln JV 7 to 0 and expect to hand the Quincy eleven a defeat Saturday.

Enrollment Shows Huge School Gain

Enrollment in the schools of the Tahoe Truckee Unified District has nearly doubled during the past five years, according to figures compiled by District superintendent John S. Corbin.

At the start of school for the year 1957-58 there were 966 students enrolled and last week there were 1,781 registered in the five schools.

Every year a marked increase has been shown, the figures show with 1958-59 being 1,276; 1959-60, 1,431; 1960-61, 1,527; 1961-62, 1,693.

Each of the five schools showed an increase, with the high school going from 382 to 466 during the five years period. The Truckee elementary school jumped from 237 in 1957-58 to 474 for this year. Tahoe Lake went from 169 to 429 while Kings Beach advanced from 147 to 369 or 1962-63 despite the fact that 40 students left the school this year to attend classes in Nevada. The Donner Trail school at Soda Springs went from 31 to 43 in the five years.

School authorities predicted five years ago that the enrollment last year, based on the steady development of the district, would be 1,744 while the actual peak enrollment for the year was 1,770.

According to Dr. John Mathewson, chairman of Sabin Oral Sunday, "immunization against all three types is needed to obtain full protection against polio. Since this is a different type of vaccine, taken by mouth, it should be taken in addition to the Salk vaccine which many of you have had. We are therefore urging you and your entire family to avail yourselves of each clinic."

Presenting the Tornado-OHC, America's first overhead camshaft engine designed specially for commercial vehicles.
WHAT IS AN OHC ENGINE? In a conventional engine, the valves are on top—the camshaft, which operates them, down below. The Tornado-OHC has overhead valves and an overhead camshaft—which is what OHC stands for. The simplicity of this system—it has 36 fewer moving parts—makes it much more efficient. It produces 33% more power with up to 25% better gas economy—needs less maintenance and lasts much longer.
COME IN AND TEST DRIVE THE TORNADO-OHC ENGINE—now available in 'Jeep' Pick-ups, 4-wheel drive Utility Wagons, 2-wheel drive Station Wagons and Panel Deliveries.

CATHOLIC PARISH IS PLANNED AT INCLINE

INCLINE VILLAGE—Establishment of a new Catholic parish on the Nevada north shore of Lake Tahoe was indicated today with purchase of a large tract of land at Incline Village for a Catholic church and school.

More than 13 acres of land have been bought from Crystal Bay Development Co. by the Most Rev. Robert J. Dwyer, bishop of the Catholic Diocese of Reno.

The property is approximately three-quarters of a mile up the new Mt. Rose Road from its intersection with Lakeshore Blvd. It is bisected by Kelly Drive, a paved street leading to an adjoining residential area.

Bishop Dwyer was quoted by revelopment company officials as saying that a church would be the first structure to be built on the site, and the new parish formed at the same time. The Nevada north shore of Lake Tahoe is presently included in Reno's Cathedral of St. Thomas Aquinas parish.

Bishop Dwyer said the first building would be a small church which could later be expanded or incorporated into a larger edifice.

Mount Jordan in Tulare County was so named in 1925 by the Sierra Club honoring David Starr Jordan, president of Stanford University 1891-1916.

MASS INOCULATION SCHEDULED SUNDAY

Mass inoculation of residents in Placer and Nevada Counties with the first phase of the Sabin vaccine is scheduled to start at noon Sunday, September 23. Clinics, staffed by volunteer doctors, nurses and lay people, have been established throughout the two counties, according to Dr. John Mathewson, SOS chairman for the Placer-Nevada County Medical Society.

In the eastern portion of the area, clinics will be held at the Tahoe-Truckee Unified schools administration office on Church Street in Truckee and at the Tahoe Lake School in Tahoe City. Dr. Ray Wiser of Truckee is coordinator and doctor in charge of the program locally.

Everyone over the age of three months is being urged to take advantage of the immunization clinic by the society.

Each person will be given a small lump of sugar, with two drops of the Sabin vaccine Sunday, in the first phase of the three-step program. Subsequent feedings are scheduled for November 4 and December 16.

ALPINE STOCK WILL BE SOLD TO SKIERS

Alpine Meadows, California's newest ski area, is opening its corporate gates to additional skier-owners through a $300,000 stock offering.

Opened only last December, Alpine Meadows is believed to be the first ski resort to make a profit its first season. This was made possible through the vast expanses of powder snow which prevailed much of the winter.

Expansion permitted by the new funds will include a new 4,100 ft. long Riblet double chairlift and a Pomalift, tripling the size of the parking lot, paving the entry road, enlargement of the lodge, remodeling of the beginner's area and trail clearing.

The stock offering, on which there are no commissions, totals 24,000 shares. They'll be sold at $12.50 per share in minimum units of 100 shares.

Those who purchase 100 shares will receive $75 worth of transferrable lift tickets; 200-share buyers get $150 in lift tickets or a season's pass.

SCHOLARSHIPS ARE OFFERED BY GROUP

The National Wildlife Federation will provide several thousand dollars in grants to natural resources conservation students again this year, the California Department of Fish and Game announced this week.

Offered are undergraduate scholarships of up to $500 and graduate fellowships of up to $1,000 to college students majoring in such subjects as natural resource management; conservation education, journalism, radio, television, and landowner-sportsmen relations.

Information and application forms are available from the sponsor, the National Wildlife Federation, 1412 16th St., N. W., Washington 6, D. C. Deadline for completed applications is December 1, 1962.

WHAT'S DOING

J. C. Domergue, your Telephone Manager in Tahoe City

IN TRUCKEE-TAHOE AREA the COOK'S BEST FRIEND is a convenient kitchen phone.

A sure fire recipe for easy carefree meal preparation. The kitchen phone allows you to make and receive calls—all the while keeping an eye on "what's cookin' ".

These phones come in beige, white, yellow, and pink to harmonize with the decor of your own kitchen.

To order yours, just call our business office JU 3-3423 or ask any telephone serviceman.

* * * * *

As any mother knows, it's usually hard to keep youngsters away from the phone. They love to use it. And it's important they learn how to use it properly when they're young. That's why we put together "Adventures in Telezonia." It's a teaching kit, complete with puppet movie, shown at left, that shows grade school students how best to use the telephone. We worked it out at the request of teachers and with their assistance. It teaches the right way to make calls, including those from public phones. And this training helps everybody get better telephone service. "Adventures in Telezonia" is available to schools just for the asking.

* * * * *

If school for your children means a college out of town, you might like to take a telephone tip from some other parents we know. They set up a weekly "date" to call . . . a certain evening or Sunday by prearrangement. That way they don't risk the disappointment of missing their "collegiates" and at the same time take advantage of low station-to-station rates.

DIVOT DIGGERS

By BETTY KIELHOFER

There will be a special board of directors meeting at the club house Thursday evening (that's tonight) at 8 p. m. There are important decisions to be made which is impossible without a quorum so please be there if you are a director. Bob Moore says plans for a 'screw-ball' scotch foursome and also for the annual championship dinner must be made with dates decided upon so please show up.

All the championship tournaments are not complete but should be by next weekend so I'll delay the list of winners until then.

I didn't get a column in last week's paper but would like to make an enthustiastic comment that the Pro-Am tournament held here and at the lake on the 7th, 8th and 9th was about the best thing that could have happened. It was lots of fun watching these experts come and go and listening to all the comments about the Ponderosa.

For many of them, it was their first time to play here and most were impressed with the course and its condition. They all seemed in agreement it was the toughest course in the area and felt it has great potential. Many did not even know Truckee had a course so this was the best advertising possible as there were players from all over the country.

The Elks had their annual tournament last Sunday and two of our locals came in very good. Mike Popovich took second in gross in the members flight and Elden Tonini won first in the men's guest flight. Mike is really coming home with the prizes this year. Elden hasn't done so badly either as he won some nice things in the Pro-Am.

Wasn't the turkey shoot fun last Sunday? Hope the Donner Lake Firemen and the Outdoor Sportsmen made some money and will do it again next year. Truckee has certainly been active this summer. It makes it much more fun to live here and should have helped keep the name of Truckee before the public.

See you next week.

OAKLAND COUPLE TO MANAGE LAKE LODGE

HOMEWOOD—Julious and Ruth Price are managing the West Shore Lodge at Homewood during September and October during which time Gordon and Rowena Minor have returned to their work with the Oakland school system.

Price is immediate past president of the Lake Merritt Lions Club of Oakland and recently retired railroad locomotive engineer. Mr. and Mrs. Price also recently retired from their successful coffee shop which they just sold. Both are enjoying the many friendships they are making in the Tahoe area.

LOCAL PROJECTS ARE DECIDED AT MEET OF COUNTY BOARD

At the last regular meeting of the Nevada County Planning Commission, members took the following action on matters relative to the Truckee-Donner area:

Acting on a request from the board of supervisors, the planning commission directed the planning director to prepare studies for directional signing and naming of sections of Old U. S. 40, which is being replaced by the freeway.

The planning director was also instructed to assist Placer County in the naming of the road between Truckee and Brockway.

Planning Director Bill Roberts states he would appreciate receiving written suggestions for names for the two routes at the Planning Commission office at 244 Commercial Street, Nevada City.

Delay Denied

The application of owner and subdivider Clinton and Alma Brines for extension of the time for filing a final map of Prosser Lake Estates Unit No. 1 was denied. The map has been approved by the Board of Supervisors last January but was not recorded within one year from the date of approval of the tentative map in September 1961.

The planning commission denied the application due to irregularities in filing procedure which would only be corrected by filing a new tentative map. The subdivision consists of 73 lots on 23.3 acres west of Highway 89 at Prosser Creek.

Use permit applications of Guadalupe Luna and Gustav Huneke for trailer parking on the Southern Pacific Company right of way in Truckee were continued for further study by the planning commission at its next meeting on September 24.

O.K. Residence Use

Approval was given to the application of Carson A. White for a residential use in a "C" zone in Donner Pines Tract. The commission also recommended that the board of supervisors approve a variance for placing a private garage with a five-foot front yard, instead of the required 20 feet, on the White property.

TO MEETING

Dr. Marvin I. Schwartz of Truckee, Tahoe City and Kings Beach will attend an Optometry Alumni Association of the University of California seminar Wednesday evening September 26 on the university's Berkeley campus.

The young couple will make their home at Reno where both will complete their education.
